

This task is not graded, and there is no submission, but setting up and accessing the software is an essential step in the course. Use the following steps to complete the tutorial.

1. Access and test Eclipse.
 - Access the virtual lab through the link in the Codio module.
 - Run Eclipse in the Codio virtual lab.
2. Run your first program in Java using Eclipse.
 - From the **Welcome** screen in Eclipse, select the **Tutorials** page in the top right.
 - Select **Create a Hello World Application** under **Java Development**.
3. Complete the tutorial.
 - Follow the steps of the tutorial.
 - Put your name in the **Hello World!** application when it runs.

Note: If you have questions or issues with this assignment, post them to the Student Development Questions discussion topic. Check the topic periodically and provide answers to your classmates. However, do not ask for or provide specific code for an assignment.
